LANGUAGES

Arabic: Native
English: Professional Working
French: Intermediate (B1)

ABDELMOULA SERGHINI

DIGITAL QA SPECIALIST | CONVERSATIONAL AI

Python • JavaScript • Prompt Engineering • LLM Agents • REST APIs • Git

PROFESSIONAL SUMMARY

Digital QA Specialist at Cnexia with a Computer Engineering background. Alongside daily testing, I've started building small AI tools to support QA work, such as Copilot agents and prompt templates for writing test cases. Strong at debugging and root cause analysis, and used to working with developers, POs, and QA teams. Eager to grow into conversational AI development.

PROFESSIONAL EXPERIENCE

Digital QA Specialist | Cnexia
Dec 2025 – Present | Fez, Morocco

- Set up Microsoft 365 Copilot agents and wrote reusable prompt templates to draft consistent, Jira-ready test cases and defect reports.
- Investigate defects, identify root causes, and route issues to the right team.
- Design and execute test cases; track defects in Jira and document in Confluence.
- Presented completed sprint work to stakeholders during sprint demos.

Customer Service Representative | Cnexia
Dec 2024 – Dec 2025 | Fez, Morocco

- Resolved customer issues, documenting cases and escalating complex ones to the right teams.
- Identified recurring problems with colleagues and proposed improvements.

Developer Intern | ATLECS
Mar 2024 – Apr 2024 | Fez, Morocco

- Contributed to web development tasks using Laravel and delivered project features with the team.
